

DINOSAUR KINETIC SAND

Materials Needed:

2 ½ cups Fine Sand

1 ½ cups Corn Starch

½ cup Baby Oil

Kinetic Sand is made up with only three ingredients! This is great for children to run their hands and fingers through the soft and stretchy , texture mixture.

You can add loose part items depending on the season, shells, dinosaurs, or anything your child is interested in to extend the play and encourage imaginative play stories.

Children will learn creativity, fine motor development, hand-eye coordination, sensory development and language development.
